

## Nodeflix

Nodeflix is a streaming service that allows customers to watch TV shows, movies, documentaries, and prerecorded sporting events through internet-connected devices. Nodeflix is a subscription-based model, offering its members three levels of access.

### Basic

- Unlimited movies
- Unlimited TV shows
- One active streaming connection at a time
- Limited commercials

### Plus

- Unlimited movies
- Unlimited TV shows
- Pre-recorded sporting events
- Two active streaming connections at a time
- No commercials

### Premium

- Unlimited movies
- Unlimited TV shows
- Pre-recorded sporting events
- Up-to-four streaming connections at a time
- No commercials
- DVR
- Two (2) premium channels

Recently Nodeflix decided to rebuild their application using modern web technologies (Node.js, Angular with TypeScript, MongoDB, and Express). Your company has been contracted to review the existing product line and design a more robust/scalable solution.
